

Machine Learning Engineer

Location: Hyderabad, India

Responsibilities

- Develop, train and deploy ML models.
- Build scalable ML pipelines and APIs.
- Optimize model performance and inference latency.
- Work with MLOps and cloud platforms.

Required Skills

Python, Machine Learning, Scikit-learn, TensorFlow, PyTorch, SQL, Git, Docker, FastAPI.

Preferred Skills

AWS, Kubernetes, MLflow, Airflow, Hugging Face Transformers, NLP, Computer Vision.

Education

Bachelor's degree in Computer Science, AI, Data Science, or related field.

Experience

1-3 years in Machine Learning Engineering.
